As a matter of fact, you will have **very** little if any grinding, trimming or adjusting to do if you entrust the construction of four full and partial dentures to Kennedy. The obvious corollary to this, of course, is increased patient satisfaction and the conservation of much chairtime.

How can Kennedy technicians cast and process restorations that assure perfect adaptation without the aforementioned grinding, trimming and adjusting? The answer is that we employ a time-proven procedure known as the **McGrane** technic. This is a scientific simplification of construction that permits precision construction, keeps laboratory work in the laboratory and eliminates it at the chair. Complete details will be gladly supplied on request.

JOSEPH E. Kennedy Co. DENTAL LABORATORIES

7900 So. Ashland Ave.
Chicago 20

Under his jacket

Are you proud that he has everything he needs as he starts the adventure of each day at school? Be prouder still of something hidden under his trim jacket—the stout heart that sends him off unafraid and eager.

This, too, you have given him because your love has made his small world secure. With it, he will build his own security as each challenge comes, in those days when he must stand alone without you.

What finer gift can you give those you love than the gift of security? It is the great privilege in America, where we are free to provide it.

And think, too—this is the way each of us helps build the security of our country, by simply taking care of our own. A secure America is the sum of its secure homes.

The security of your country begins in your home.

Saving for security is easy! Here's a savings system that really works—the Payroll Savings Plan for investing in United States Savings Bonds.

This is all you do. Go to your company's pay office, choose the amount you want to save—a couple of dollars a payday, or as much as you wish. That money will be set aside for you before you even draw your pay. And automatically invested in Series "E" Savings Bonds which are turned over to you.

If you can save only \$3.75 a week on the Plan, in 9 years and 8 months you will have \$2,137.30.

U. S. Series "E" Savings Bonds earn interest at an average of 3% per year, compounded semiannually, when held to maturity! And they can go on earning interest for as long as 19 years and 8 months if you wish, giving you back 80% more than you put in!

For your sake, and your family's, too, how about signing up today?

The U. S. Government does not pay for this advertisement. It is donated by this publication in cooperation with the Advertising Council and the Magazine Publishers of America.

THE CALENDAR

- May 18:** CHICAGO DENTAL SOCIETY: Ladies' Night, regular monthly meeting and installation of officers will take place in the North Ballroom of the Conrad Hilton Hotel, 8:00 p.m. Canon Laurence Hall will be the speaker; his subject, "He Who Laughs Last Lasts." Please turn to pages 12 and 13 for further details.
- May 19:** ALPHA OMEGA FRATERNITY: Annual golf outing, dinner, and installation of officers at Nordic Hills Country Club, Bloomingtondale Road, Itasca, Ill.
- May 20:** CHICAGO DENTAL ASSISTANTS ASSOCIATION: Meeting and installation of officers at the Columbia Yacht Club, with a buffet dinner at 6:30 p.m.
- May 21:** INTERNATIONAL ASSOCIATION OF DENTAL RESEARCH: Monthly meeting at the Institute of Medicine, 4th floor, Crerar Library building.
- May 25:** FAR WEST DENTAL STUDY CLUB: Carnival night at the Woodridge Country Club, Route 53, 1½ miles south of Lisle; 6:30 p.m. All Chicago Dental Society members are invited.
- May 26:** WEST SIDE BRANCH: Annual golf outing and dinner at the Glendale Country Club, Bloomingtondale, Illinois.
- June 3:** SOUTH SUBURBAN BRANCH: Annual golf outing and dinner at the Chicago Heights Country Club.
- June 9:** KENWOOD-HYDE PARK BRANCH: Annual golf outing and dinner at the Navajo Hills Country Club.
- June 9:** NORTHWEST SIDE BRANCH: Annual golf outing and dinner at Itasca Country Club.
- June 16:** ENGLEWOOD BRANCH: Annual golf outing and dinner at Navajo Hills Country Club.
- June 16:** NORTH SIDE BRANCH: Annual golf outing and dinner at the Wilmette Golf Course.
- June 16:** UNIVERSITY OF ILLINOIS ALUMNI ASSOCIATION: Annual golf outing and dinner at White Pines Golf Club.
- June 23:** CHICAGO DENTAL SOCIETY: Annual golf outing and dinner at Glendale Country Club. See page 4.
- July 14:** NORTH SUBURBAN BRANCH: Annual golf outing and dinner at Thorngate Country Club.

New Officers to Be Installed at May Meeting

The new 1954-55 administration of the Chicago Dental Society officially begins its regime on the first day of June but the officers will be installed at the May 18th monthly meeting and will have the intervening time to perfect their final plans for the year of hard work ahead of them.

The newly-elected president, Dr. S. R. Kleiman, will enjoy the aid and assistance of a group of experienced administrators. His Vice-president will be Dr. Harry W. Chronquist; his Secretary will be Dr. L. W. Michael Hughes and his Treasurer will be Dr. Edward W. Luebke. The President-elect will be Dr. G. W. Solfronk who will advance to the presidency one year hence.

The Board of Directors will see some new faces with Dr. Olan B. Kibler coming on from the North Suburban Branch, Dr. Walter E. Kelly from the West Side Branch, Dr. Neil A. Kingston from the South Suburban Branch and Dr. Wayne L. Fisher from the Kenwood-Hyde Park Branch.

Retiring directors are Drs. L. G. Bettenhausen, Robert L. Kreiner, Walter T. Poyer and Alvin J. Sells.

We list here some of the qualifications of these men who will lead Chicago dentistry for the forthcoming year:

PRESIDENT

Dr. Samuel R. Kleiman, President

Dr. Kleiman's ascendancy to the highest honor the Chicago Dental Society affords, one of the notable positions in organized dentistry nationally, culminates a long career devoted to the betterment of the profession and to the advancement of the members of the Society. He worked long and faithfully in the West Side Branch as Treasurer, Vice-president and President and in the

Illinois State Dental Society as chairman of a variety of committees as well as being delegate or alternate to many meetings of the American Dental Association. He worked up through the offices in the parent Society, Vice-president, Treasurer, Secretary for two consecutive terms and,

during the year past, President-elect and Chairman of the Midwinter Meeting Affairs Committee. These years of yeoman service have earned him a wide popularity and well-merited respect as a hard and loyal worker for the good of dentistry.

Dr. Kleiman was born and raised in Chicago. He served in World War I as a master engineer in the Chemical Warfare Service of the Army. He entered the Chicago College of Dental Surgery, Loyola University School of Dentistry, upon his return to civilian life and was graduated in 1923. He was on the faculty at his alma mater from graduation until 1929, teaching Crown and Bridge and Full Denture Prosthesis. He later returned to the faculty for a time as Assistant Professor in Ceramics, and is now on a leave of absence. He has, somehow, found time to advance the welfare of his school by serving as Treasurer, Vice-president and Secretary and again as President of the Loyola Dental Alumni Association, and as a director of the Loyola Fulfillment Fund. He is a member of the American Denture Society, Omicron Kappa Epsilon, the Denture Research Group, the American Academy of Dental Medicine, the Academy of General Dentistry and the Alpha Omega Dental Fraternity. His hobbies are golf, gin rummy and civic affairs.

The Chicago Dental Society is indeed fortunate to enjoy at this important time in its affairs the leadership of a man with industry, experience and perseverance such as Dr. Kleiman. We wish him all the luck in the world!

VICE-PRESIDENT

Genial, cigar-smoking Harry Chronquist from Evanston will serve the Society as its Vice-president. He has toiled long in the ranks of the North Suburban Branch where he held the posts of Treasurer, Secretary and President. He further served the Branch by representing it on the downtown Board of Directors. This previous experience in the administration of Society affairs will stand him in good

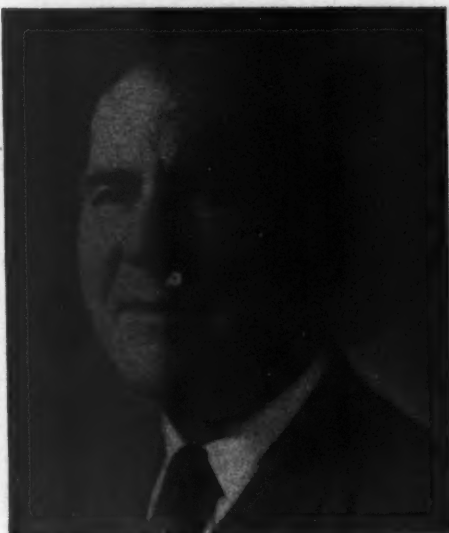

Dr. Harry W. Chronquist, Vice-President

stead in the crucial year to come. He has been chairman of several of the major downtown committees as well as those in his branch. He is a Chicago College of Dental Surgery, Loyola University graduate—Class of '27.

SECRETARY

Not being blessed with quite as many IBM statistical and tabulating machines as the FBI, the Chicago Dental Society has to rely on individually supplied personal histories to check its own biographical data on newly-elected officers. It augurs well for the painstaking roll of Secretary that we apparently have here a man who is complete and methodical in his records. Dr. Hughes furnishes us a list headed "The Facts" about himself and we can do no more complete resumé of them than to follow the list. He graduated in the University of Illinois College of Dentistry Class of 1922, served on the Executive Board and as President of the Alumni Association. He is a Life Member and Past Grand Master of the Chicago Graduate Chapter of Delta Sigma Delta. He is a member of Omicron Kappa

Upsilon and a Fellow of the International College of Dentists. He is a Charter Member of the South Suburban Branch and has served the Branch as Treasurer, Secretary and President. He has served the Chicago Dental Society as Director from the South Suburban Branch from 1938 to 1941, Chairman of the Legislative and Law Enforcement Committee, Chairman of the Finance Committee, Chairman of the Publicity Committee and Chairman of the Entertainment Committee. He has served the Illinois State Dental Society as Chairman of the Committee on the Infraction of Laws and is currently Chairman of the Committee on Federal Health Legislation. In addition he was nine times a delegate to meetings of the American Dental Association. He is a member of the Chisellers Club, Olympia Fields Country Club and the Chicago Athletic Association. We have a good man here.

Dr. Edward W. Luebke, Treasurer

TREASURER

Our new Chancellor of the Exchequer is a gift to Chicago dentistry of Clintonville, Wisconsin, a garden spot of the North Woods with which we still must

share our good companion and able raconteur. Dr. Luebke graduated in 1913 from the Chicago College of Dental Surgery, Loyola University, and served his country in World War I.

A member of the North Side Branch, he has been a member and often chairman of most of its committees as well as Branch Treasurer, Secretary, Vice-president and President. For the parent society he has acted as Chairman of the Registration Committee, Chairman of the Limited Attendance Clinics Committee, Chairman of the Ethics Committee, Chairman of the Membership Committee and he is the immediate past Vice-president. He has served for the past four years on the Executive Council of the Illinois State Dental Society and on various American Dental Association committees including the Council on Membership. He has also been a member of the House of Delegates many times. He is a member of the Psi Omega Fraternity and the Federation Dentaire Internationale. Dr. Luebke's hobbies are hunting, fishing and outdoor life in general and he is much interested in wildlife and its habits.

Dr. L. W. Michael Hughes, Secretary

Dr. Gustav W. Solfronk, President-elect

PRESIDENT-ELECT

The gentleman who occupies this position indicative of his colleagues' esteem this year needs not our introduction to the world of dentistry. Known everywhere and well-liked wherever he is known, Gus Solfronk has worked hard for dentistry and is well-deserving of his reputation for industry and administrative drive. Graduating from Chicago College of Dental Surgery, Loyola University, in 1924 Dr. Solfronk opened his practice on the Southwest Side of the city and has been on West 63rd Street since 1932. He has been Treasurer of the Chicago Dental Society, its Vice-president and just completed a year as its Secretary. He was Program Chairman of the 1951 Midwinter Meeting and Chairman of the Membership Committee for the parent Society. He served the Englewood Branch as Vice-president and Treasurer and the American Dental Association as delegate and as an alternate delegate. Active in the civic affairs of his section of the city, Dr. Solfronk has worked for years as a member of the Board of Directors of the Southtown Y.M.C.A. and as Chairman of the Communities Y.M.C.A. Dr. Solfronk's

main interests in life outside of dentistry and dental affairs are his charming grandchildren, fishing and bridge. His white marlin caught in 1953 off of Bimini in the Gulf Stream was a near record there for the year.

THE NEW DIRECTORS

Taking them alphabetically to avoid argument (not that we shun argument—it's just that the line is getting so long) we now present our new Directors from the branches.

Wayne L. Fisher comes to the Board of Directors of the Chicago Dental Society directly from a most successful year as President of the Kenwood-Hyde Park Branch. He served the parent Society this past year as Chairman of the busy and important Registration and Credentials Committee for the Midwinter Meeting so between these two administrative experiences he will have amassed a great deal of know-how that will stand him in good stead on the Board.

Dr. Fisher graduated from Fairview, Illinois, High School in 1922 and from the Chicago College of Dental Surgery, Loyola University in 1926. In addition to his recent term as President of Kenwood-Hyde Park Branch he held the offices of Secretary and Treasurer of the Branch. He is a member of the Board of Governors of the Odontographic Society of Chicago.

Fraternity-wise he is a Xi Psi Phi and he is a member of the Shrine. He is a member of the Flossmoor Country Club and, around Fairfield, he is known as an expert pheasant shooter.

Walter Kelly from the West Side Branch graduated from the Chicago College of Dental Surgery, Loyola University in 1934. He served his branch on most of its committees and has held Branch offices of Vice-president, Secretary, President and Program Chairman. For the parent Society, Dr. Kelly has worked on the Exhibit Registration Committee, the Registration Committee and the Information Committee of which latter he was the Chairman. For the Illi-

nois State Dental Society he has served on the Clinic Committee and the Necrology Committee and for the American Dental Association he worked on the Information Committee at the last Chicago convention.

Dr. Olan B. Kibler comes to us from the North Suburban Branch to complete the unexpired term of Dr. Walter Poyer forced by illness to withdraw. Dr. Kibler graduated from the Chicago College of Dental Surgery, Loyola University, in 1927 and practices in Evanston. He is a past-President of the North Suburban Branch and of the Evanston Association of Dentists. For the parent Society he is currently a member of the Essay Committee which he will vacate on the day he assumes office as a Director. He is a member of the Delta Sigma Delta fraternity and of the American Denture Society.

Dr. Neil A. Kingston will represent the South Suburban Branch of the Chicago Dental Society for the next three years following in the footsteps of the friendly and financially prescient Lloyd Bettenhausen. Dr. Kingston is a native of New York State and graduated from the University of Illinois College of Dentistry in

1923. He has held all of the offices in the South Suburban Branch, that of President in 1941. He served the parent Society as a member of the Ethics Committee for six years and as Chairman of that Committee his final year.

It is a pleasure to welcome all of these men to our official family. The average member, impercipient to the slings and arrows of outrageous vicissitude that assail betimes the officers and directors, unknowing of the time and energy entailed in the constant meetings, conferences and discussions and totally unmindful of the load of care and concern that these men are assuming for the sake of their profession never divest the reality from its sheen and really appreciate the cost. They think that the "honor" of the position requites them for the time away from their practices, from their families and from their chosen recreations. It doesn't begin to do so in any way and these men deserve every bit of thanks and appreciation we can give them for the work they do for us. They have deserved and will deserve a lot more than they will ever get from the rank and file, too; sad to relate.

Anyhow, welcome aboard!

ABSTRACTS

SODIUM FLUORIDE TABLETS

There has been no adequate published study to verify the assumption that, theoretically, dental benefits may be obtained from individual dietary supplements of soluble fluorides. Certain factors present difficulties in individual administration. An optimum amount of fluoride must be given daily through the first eight years of life to receive dental benefits; even a longer period may be desirable. The fluoride supplements must be adapted to the individual water supply or used only where the drinking water is essentially free of fluoride. Because the improper use of fluorides may present a hazard, such supplements should be limited to prescription in cases that will be well supervised. Obviously, the fluoridation of public drinking water is preferred, but fluoride supplementation may prove useful in areas where it is not available.—*SODIUM FLUORIDE TABLETS AND DENTAL DECAY. The Journal of the American Medical Association, February 13, 1954. O.C.L.*

ORAL AND FACIAL PAIN

It is becoming increasingly important for the dental profession to recognize its responsibility in the analysis, diagnosis, prognosis, and theory of obscure oral and facial pain. An understanding of the nature and characteristics of pain, somatic and psychosomatic, and of effective methods of diagnosis, therapy, and prevention, are necessary. This presentation describes a group of cases handled in recent months. One case is described in detail. It illustrates the necessity, in complex conditions, for adequate preliminary study and caution in diagnosis, and for repeated review and analysis during treatment. In cases of obscure pain it is often essential to combine diagnostic testing

and actual therapy. The possibility of the existence of both psychological and organic factors must be considered. An understanding and humanitarian attitude is absolutely necessary in successfully handling these obscure problems. Effective performance is based upon a reasonable familiarity with those aspects of local-systemic inter-relationships, of neuro-anatomy physiology and pathology and of psychogenic disturbance related to pain case-management. — *AN APPROACH TO THE PROBLEM OF FACIAL PAIN, first report from Consultative Oral and Facial Pain Service, University of California, College of Dentistry. The Canadian Dental Association Journal, January, 1954. O.C.L.*

GEOGRAPHICAL INFLUENCE ON DENTAL DISEASE

This study brings together large geographical studies of dental disease in the United States, Africa, Australia and New Zealand, and analyzes them statistically. It is hoped that etiological factors will be recognized that have not been previously studied in relation to dental disease.

The pattern that emerges for the United States shows dental disease to increase with latitude and with distance from seacoast. A similar pattern, inverted, is found in South Africa. Variation with latitude is apparent in Australia. Climatological factors, sunshine, rainfall, temperature, and relative humidity, and the chemical composition of water supplies, probably account for most of the variations in dental disease. In this study, the relation of sunshine to dental disease is confirmed, and that of relative humidity demonstrated. Sunshine and temperature seem to be the major factors involved in variation with latitude. Variation in mean annual hours of sunshine presents a

(Continued on page 23)

NEWS AND ANNOUNCEMENTS

O.A.S.I. POLL RESULTS

The results on the recent O.A.S.I. poll conducted by the Chicago Dental Society are as follows:

1,295—in favor of dentists being included in the Old Age and Survivorship Insurance program.

271—opposed to dentists being included in the Old Age and Survivorship Insurance program.

ALPHA OMEGA OUTING

The annual golf outing of Illinois Alpha Omega will be held on Wednesday, May 19, at Nordic Hills Country Club, Itasca. Highlight of the affair will be installation of officers for the coming year.

Dinner reservations will be \$5.50 in advance, and golf \$2.00 to be paid at the door. Chairman of the Committee is Dr. Jules Hazelkorn.

DECEASED MEMBERS

Heyboer, G. F., 3034 West 83rd Place, Chicago; Northwestern University Dental School, 1919; member of Englewood Branch; died March 23; aged 64.

Lestina, Joseph M., 5949 W. North Avenue, Chicago; Chicago College of Dental Surgery, Loyola University, 1936; member of West Suburban Branch; died March 31.

Nemmers, Edward G., 1369 Fullerton Avenue, Chicago; Chicago College of Dental Surgery, Loyola University, 1913; member of North Side Branch; died March 20.

Shoore, Leo J., 2756 W. Division St., Chicago; Northwestern University Dental School, 1912; member of Northwest Side Branch; died April 16; aged 73.

KOREAN GI BILL ENROLLMENT DEADLINE

Post-Korea veterans, released from military service before August 20, 1952, had better start making plans now if they intend to enroll in Korean GI Bill training before a fast-approaching deadline, Veterans Administration recently announced.

Under the law, these veterans actually must begin training before this coming August 20, in order to continue afterwards.

For many of the veterans, summer terms in school—getting under way in about two months—will be their last chance to start Korean GI training in time. Next fall's school terms begin too late.

It doesn't pay to wait until the last minute before taking action, VA emphasized.

Once a veteran has decided to train under the Korean GI Bill, he must choose the school and course he wants. He must make certain that the course is GI-approved. Any VA Regional Office can furnish him information on this point.

Then he must be sure that the school will accept him for training.

His next step is to file an application for Korean GI Bill training with the VA, or with the approved school in which he wishes to enroll.

For veterans requesting VA counseling to help them decide on an objective and a training program, prompt action is a "must"; the counseling process adds still another step that is necessarily time-consuming.

VA reminded veterans that the August 20 deadline applies to veterans planning to take on-the-job and on-the-farm training, as well as to those who intend to go to school.

This August's cut-off date applies only

to veterans who left the service on or before August 20, 1952, VA said. Veterans separated after that time have two years from the date of their separation in which to begin Korean GI training.

The law requires that a veteran must "enroll in and begin" training on or before his deadline, if he wants to go on with it afterwards. The mere filing of an application beforehand, with the intention of starting later, is not enough.

These cut-off date rules apply only to veterans planning training under the Korean GI Bill. They do not pertain to veterans enrolled under the original World War II GI Bill.

ANNUAL TELEPHONE LECTURES ANNOUNCED BY U. OF I.

The University of Illinois College of Dentistry has announced the sixth annual series of telephone lectures entitled "Cur-

rent Advances in Dentistry." The series, which will emphasize problems in dental practice, will be offered monthly starting Monday, Nov. 8.

Twenty-five prominent dental practitioners and scientists have been selected to serve as faculty for the series of five programs which will be transmitted by telephone from the University of Illinois Professional Schools to dental societies and study clubs throughout the United States and Canada.

A new schedule of fees is given below.

Under the new plan a flat fee of \$300 is established for all groups regardless of size. The number of members in groups is in no way limited, and guests may be freely invited. This cost covers the slide film and sufficient manuals to cover enrollment up to 50 members. Additional manuals may be purchased at \$3 per copy by groups having enrollments over 50.

Another innovation will interest those groups which are unable to schedule their

Help Korea Train

All members of the dental profession in the United States have been requested to support the current campaign of the American Korean Foundation to collect supplies in all communities of the nation for shipment on the **HELP KOREA TRAINS** which will go throughout the country at the end of May.

President Eisenhower has endorsed the campaign and scores of national organizations are cooperating in an effort to provide the help needed to restore war-torn Korea.

The **HELP KOREA TRAINS** will leave from 50 key cities. In addition, freight cars will be provided for all other cities in the nation. The railroads are donating all of their services.

Members of the dental profession are being asked specifically to provide dental materials and supplies. The attached report about dentistry in Korea demonstrates the importance of our participation in this campaign. There is no professional area in Korea where the needs are greater than in dentistry.

Currently there are 955 registered dentists in Korea of which 796 are qualified dentists and 159 limited dentists. No more limited dentists are to be trained. The critical shortage of dentists is further aggravated by the heavy concentration of dentists in the urban areas and a scarcity of dentists in the rural areas. In Seoul City there is one dentist for each 3,100 persons, but the next lowest ratio is one dentist per each 20,000 in Pusan (Kyongsang-namdo Province) and on Cheju-do Island there is but one dentist for each 250,000 persons.

The Republic of Korea (ROK) Army now has 176 dentists on active duty and the ROK armed forces absorbed all but two of the 1953 graduates. The ratio of dentists to troops in their armed forces is approximately one dentist to each 4,000 troops as compared to two dentists per 1,000 troops in our own armed forces. The ROK Army is currently training ap-

proximately 80 dental technicians and 80 dental assistants each year, but all are retained by the army.

It is estimated that to give adequate dental care, the Republic of Korea would need 3,500 dentists. At present, their one dental school, the College of Dentistry of Seoul National University, graduates sixty dentists each year, but approximately twenty-five a year are lost to the profession through death or retirement.

During the fighting, the dental school, and all other colleges of the university, were forced to flee south to Pusan. When they returned in September 1953, all of the windows had been broken, the equipment destroyed or stolen by the Communists and the heating system destroyed. Only the fact that the building was well constructed of brick and had not suffered any direct shelling made it worthwhile to move back at all.

Many of our American dentists serving with our armed forces aided materially on a voluntary basis in their off-duty hours by assisting with the refurnishing of the building and the re-equipping of the schools by writing home to their friends for help. Many also served as voluntary instructors in their off-duty hours. American dentistry can well be proud of their spirit.

One young American dentist who taught in his off-duty hours became so deeply concerned that now that he has been discharged from the armed forces he plans to go back to Korea in the fall at his own expense to remain the entire school year aiding in the re-organization of the school and in teaching. The American-Korean Foundation (AKF) is making arrangements to aid this dedicated young dentist and to give further assistance to the college.

By last September, the windows in the college had been replaced, a few dental chairs and motors had been salvaged and repaired and two oil stoves had been purchased for the main operative clinic. As

(Continued on page 23)

Dr. Charles R. Baker Will Receive Orthodontics' Highest Award

Orthodontics' highest award will be conferred on Dr. Charles R. Baker of Evanston at the fiftieth annual meeting of the American Association of Orthodontists on May 17 at the Palmer House in Chicago.

The honor is in recognition of Doctor Baker's many contributions to orthodontics, and is known as the Albert H. Ketcham Memorial Award. It is presented annually to the orthodontist whose devotion and service to the profession are of exceptional merit. Conferring the award has not been limited, however, to orthodontists; it has also been granted to other distinguished men in fields allied to dentistry. In 1949, for example, it was presented to Dr. William K. Gregory, anthropologist, of the American Museum of Natural History.

Doctor Baker's interest in dentistry dates from the beginning of the century. He graduated from the Northwestern University Dental School in 1903, and was appointed instructor in orthodontics at Northwestern in 1904. Ultimately he became professor and head of the department, during which time he established the graduate course in orthodontics at Northwestern in 1927. He practiced general dentistry in Riverdale and Chicago before moving to Evanston in 1908. In 1909 he limited his services to orthodontics, and still is in active practice in his specialty.

Doctor Baker's activities have covered the entire field of orthodontics and have extended into the general practice of dentistry as well. He has written more than 60 papers and has been a member of more than 200 committees. At one time or another he has been president of the Chicago Dental Society, the American Association of Orthodontists, American Board of Orthodontics, Chicago Association of Orthodontists, Evanston Association of Dentists, and of several other dental organizations.

Doctor Baker has also served various dental organizations as vice-president, secretary-treasurer, director, delegate, committee chairman, editor, and librarian. He has been a founder and charter member of several local dental groups. For more than 20 years he acted as chairman of the children's dental clinic sponsored by the Junior League of Evanston. In addition, he has given many general clinics, radio talks, and lectures, and has always been first to lend a helping hand to the younger men during their early years of practice.

In addition to this new honor, Doctor Baker has received the Award of Merit from the Alumni Association of Northwestern University. He is a member of Omicron Kappa Upsilon scholastic dental fraternity, of Delta Sigma Delta undergraduate fraternity, and is a Fellow of the American College of Dentists. All Chicago dental organizations join in congratulating Doctor Baker in this recognition by the American Association of Orthodontists of his many services to dentistry.

Dr. Charles R. Baker

Regular Meeting of the Chicago Dental Society

April 20, 1954

Conrad Hilton Hotel

It was moved and seconded to dispense with reading of the minutes of the January meeting.

It was moved and seconded to approve the minutes of the January meeting as published in the April 1st issue of the FORTNIGHTLY REVIEW.

There were no reports of boards, standing committees or special committees and no unfinished business.

Under new business, there being no other slate of candidates for the elective offices of the Chicago Dental Society, President Ebert directed the Secretary to cast a unanimous ballot on behalf of the following candidates:

For President-Elect . . . Gustav W. Solfronk
For Vice-President . . . Harry W. Chronquist
For Secretary . . . L. W. Michael Hughes
For Treasurer Edward W. Luebke

Dr. Samuel R. Kleiman being duly elected last year as President-Elect automatically becomes President and will be installed at the May meeting with the other officers.

Under new business the Board of Directors of the Chicago Dental Society recommended acceptance of the following resolution:

RESOLVED that Section 14 of Article XXII of the Chicago Dental Society Constitution and By-Laws, which now reads as follows: "The Chicago Dental Society shall furnish each branch society with a sum of one hundred and fifty dollars (\$150.00) annually for operational expense. Branch societies having more than one hundred (100) members shall receive from the Chicago Dental Society, in addition to the one hundred and fifty

dollars (\$150.00), the sum of one dollar (\$1.00) annually for each member in excess of one hundred (100) members, as shown by the records of the branch society on September 1 of each year." be changed in the following particulars:

1. That the figure, "\$150.00" be changed to \$200.00 and
2. That the words "\$1.00 annually for each member" be changed to read \$1.50.

Dr. Ebert then introduced Dr. Harold Hayes, Monthly Meeting Program Chairman, who in turn introduced a member of his committee, Dr. E. L. Hullison.

Dr. Hullison presented Dr. Ralph F. Sommer of Ann Arbor, Michigan, who is head of the Department of Radiology and Endodontia. In his presentation he considered all types of injuries to teeth, treatment of single and multi rooted teeth, the reimplantation of teeth, conservative and surgical methods of dealing with periapical involvements and the management of permanent teeth in young patients.

The next speaker was Dr. Robert R. Fosket whose subject was "Technics Used in Making Intraoral Radiographs, the Process of X-ray Films Showing Interesting Radiographic Findings." Dr. Fosket secured his degree in 1920 from Northwestern University Dental School, is on the faculty of Northwestern University Dental School, and is an author of numerous articles and papers on Intraoral Radiography and Interpretation, a man well versed in his field.

The meeting was well attended. Hope to see you at the next meeting May 18th and to this one you can bring the ladies.

Respectfully submitted,
G. W. Solfronk, *Secretary*

NEWS OF THE BRANCHES

SOUTH SUBURBAN

Hold your hats, boys, here is the announcement that you all have been waiting for—we are having our golf outing on Thursday, June 3, at the Chicago Heights Country Club. Pete Iagmin is going to great lengths to make sure that we will have a wonderful meal and that the servings will be very ample. As far as we know now, the charges for the day will be as follows: dinner, \$3.50; golf, \$2.00. All of you will be mailed reservation cards; we would like to have as large a turnout as possible as this will be really something worth attending. . . . Smiley Simon, feeling his oats and wanting to work off some steam and incidentally save a few kopeks, undertook to put a new roof on his farmhouse out in Indiana, and I have it on very good authority that as of this writing he is as incapacitated with a sore back and aching muscles as any one man can be. The real rub is that he has not been able to go to the office and take care of his commitments there. . . . In the odds and ends department—Lloyd Bettenhausen and Herb Hammer were in attendance at the alumni dinner at Northwestern and Dan Altier went down to Loyola for their homecoming. Dan also took time off to go way out to West Virginia with Mrs. Altier to take in the sights and enjoy the atmosphere at White Sulphur Springs. That is one of the few places that still has a polo field for the use of its guests. I wonder if Dan took some of his horses with him. . . . Gil Alpert got himself one of those nice new homes out in Park Forest, and not too far from Herb Hammer. Now you boys can borrow garden stuff from each other too. . . . Now that the golf season is under way, Silvio Tiberi is planning to keep up the payments on his nice new Buick with the winnings from his golf game. . . . Neil Kingston is up in Canada on a fishing trip and he is to be joined by Vance

Phillips. Between the two of them—neither one being very modest—we should be hearing some really tall fishing tales. . . . We are sorry to learn of the recent loss of the mother of Harry Lees, and I am sure that all of you will join with me in expressing our sympathies. . . . About this time we should have rejoining us the gay Lothario of Blue Island—Pippert—returning from a month's vacation visiting various places of interest. . . . That's all for now, see you all June 3rd at the golf outing.—*H. C. Gornstein, Branch Correspondent.*

KENWOOD-HYDE PARK

Since this should be my last column (my year is up), I want to thank those of you who have given me help in getting news. I have to admit that I had very little news and it came from the same group most of the time. If I have missed anyone, please forgive me because it hasn't been intentional. . . . Walt Dundon spent a very enjoyable time in Milwaukee attending the Wisconsin State Dental Society meeting which he reports as being an excellent one. . . . Howard Harvey thinks he would like to move into one of those new medical buildings (who wouldn't) where there is everything that one could ask for, including lots of wealthy patients. There are some real nice offices, but try and get one. . . . Harry Hartley has moved to 25 East Washington St., Suite 1620, and from all reports everything is going along fine. No elevator accidents. The best of luck and a full appointment book in your new location! . . . Bob Kreiner has a request to make—have you any old dentures or partials or both that are just taking up space? If so, call Bob and he may be able to help you keep your office a little cleaner.—*Warren H. Lutton, Branch Correspondent.*

WEST SUBURBAN

We'll be seeing you in Springfield May 10, 11, 12 and 13 during the 90th annual State meeting. The program will prove to satisfy the tastes of all present. . . . The final meeting of the year heard Rudy Hinrichs make these remarks: "At the end of my term—and it was a good year—I want to thank the officers and the chairmen and members of the committees for the services which they have rendered to the branch. I am very grateful for the support which these men have given to my personal efforts. There is not space enough to mention the individual contributions of the many who have worked behind the scenes in less spectacular but no less vital posts. I feel, however, that I must single out those particular efforts to which the year owes its singular success. The great attraction of the year was the excellent programs, which brought out the membership in great numbers to our meetings. The program committee under its dynamic chair-

man, Jack Opdahl, merits fully our unreserved praise. Jack carried much of the work singlehandedly from its conception to its final realization, directed most of the publicity and took it upon himself to receive the speakers, entertain them before and after and also send them safely off again. The stupendous clinic night crowned his efforts with a record attendance of 160 dinner guests and of over 200 visitors to the clinics themselves. Jack's devotion to the affairs of the branch are the more outstanding as his energies and talents were called upon during the year by many other obligations. While he worked for us Jack was also active as councilman from the Chicago District, as program chairman for the 25th anniversary reunion of his class and as program chairman for the local Lions Club and functioned in three or four other jobs of no less importance, altogether a truly astounding achievement in public service. As the newly elected librarian, Jack replaces Howard Buchner,

SHAY MEDICAL AGENCY

Suite 1935, Pittsfield Bldg., 55 E. Washington St. Telephone STate 2-2424
A complete service in medical and dental personnel . . . Nation Wide

Wanted: Dental assistant, full time. Southwest Side. Modern, air-conditioned building. Experienced preferred. Some typing experience necessary. Good starting salary. Telephone HEmlock 4-4551.

SITUATIONS WANTED

Situation Wanted: Dental hygienist, graduating in June, desires position in downtown Chicago. Address J-21, The Fortnightly Review of the Chicago Dental Society.

DENTAL ASSISTANT: Relocation has made it necessary for this "topnotch" 25-year-old to seek a new position. She worked on her last position for 4 years in a 2-chair, 1-doctor office. Her duties were varied and she frequently worked under pressure. Previous employer states "that her duties were carried out promptly and accurately." Added to all this is a charming, public relations personality. For information on the above applicant and many others call RAndolph 6-3837, GARLAND MEDICAL PLACEMENT. THERE IS NO COST OR OBLIGATION TO YOU.

TRAINEES: Many high caliber young women register with us in hopes of "breaking into" the dental field. Salary requirements, of course, are low but enthusiasm and eagerness to learn are high. For information call RAndolph 6-3837, GARLAND MEDICAL PLACEMENT. WITHOUT COST OR OBLIGATION TO YOU.

OPPORTUNITIES

Wanted: Associate dentist in general dentistry, full or part time, in South Suburban office located in a new modern community. Address J-16, The Fortnightly Review of the Chicago Dental Society.

Wanted: Associate, full or part time, with option to buy. Busy South Side two-chair office. Monday, Wednesday, Friday and Saturday. Recent graduate preferred. Address J-18, The Fortnightly Review of the Chicago Dental Society.

Wanted: Dentist, full time, Southwest Side. Main floor office in new modern air-conditioned building. Telephone WALbrook 5-2670.

Wanted: Dentist for new ground floor medical and dental center in one of the busiest and most densely populated neighborhoods in Chicago. Will be very lucrative for right person. Call ESsex 5-3377 after 6:30 p.m.

MISCELLANEOUS

HYPNOTISM INSTRUCTION: Evening Classes. Under direction of Edwin L. Baron, Ph.B. Hypnotism Institute of Chicago, 64 West Randolph Street, Chicago 1, FRanklin 2-4188.

pattern similar to that for dental disease in the United States, with considerable latitude changes. Temperature varies almost entirely with latitude and may be related to dental caries through its effect on caloric requirements and water consumption. More carbohydrate food seems to be consumed in northern latitudes. It has been stated that urbanization is a reason for higher dental caries in the north, but data from forty-one cities in the United States show caries to be only slightly higher than in adjoining rural sections. Fluorides, total water hardness and relative humidity seem to be the major factors involved in variations with distance from seacoast.—*THE INFLUENCE OF LATITUDE AND DISTANCE FROM SEACOAST ON DENTAL DISEASE*, by James M. Dunning, D.D.S., M.P.H. *Journal of Dental Research*, December, 1953. O.C.L.

HELP KOREA TRAIN

(Continued from page 14)

this young dentist said, "We really must take off our hats to these people—they may be down, but with a little luck and a helping hand now and then, they will pick themselves out of the rubble and go to work, humbly but very proudly."

As a part of the program for the rehabilitation of the Seoul National University, the Foreign Operations Administration has budgeted funds for this fiscal year to aid in the reconstruction and re-equipping of the College of Dentistry and some other colleges of the university. It will, however, be some time before this work can be completed.

In the meantime, Korean dentistry and the College of Dentistry sorely need the help of their American colleagues. Half of the 400 students now in the college are junior and senior students in their clinic years. They do not have enough hand instruments and ordinary

That Tough Case with spaces between centrals or spaces between cuspids and laterals or both. If you are puzzled as to how to close these spaces we can tell you how other dentists have solved the same problem. Just send stone models of full upper and lower teeth. . . . Please send your impressions for our other specialties.

Also send for price list, stickers and mailing boxes.

A phone call will bring our prompt pick-up service to any part of the Chicago area.

day-to-day supplies to allow them to do very much practical clinical work prior to their graduation. Here is where American dentistry can make a significant contribution by contributing any of the following items that are urgently needed:

Operative instruments such as hatchets, hoes, excavators, scalers, carvers, etc.

Clinical supplies such as gauze, sponges, dental cotton and cotton rolls, dental burrs of all sizes and shapes, alcohol, silicate cements and liquid, medications of all kinds, zinc oxide powder and eugenol liquid, zinc phosphate powder and liquid, gutta percha.

Prosthetic supplies such as acrylic, porcelain teeth or acrylic teeth, impression compounds.

Surgical supplies such as procaine hydrochloride (with and without adrenalin), sterilized gauze and applicators, mataphen, surgical forceps, elevators, chisels and files, suture material and needles, syringes and needles.

In other words, **THEY NEED EVERYTHING!** Any dental item of any kind or in any shape or condition would be welcome.

Chicago dentists wishing to contribute any of the above material to the **HELP KOREA TRAIN** are to package and securely wrap their gift and either mail or bring it to the office of the Chicago Dental Society before May 25th. There it will be boxed in wood for overseas transport and taken to the Chicago warehouse ready for pickup at the end of the month when the **HELP KOREA TRAIN** comes chugging along.

NEWS AND ANNOUNCEMENTS

(Continued from page 12)

meetings on this date or at the time set for the broadcasts. A sound projection program of the telephone broadcasts with manuals and film strips will be made available at the same fee.

Deadline for enrollment, the University has announced, is June 15. A check for \$300 must accompany enrollment applications.

Subjects for the 90-minute presentations, dates and faculty are as follows:

Emergency Problems in Dental Practice, Nov. 8—Dr. Thomas Barber, University of Illinois; Dr. Joseph Kostubala, Loyola University; Dr. Norman Roberg, University of Illinois (Medicine); Dr. Bernard Sarnat (moderator) University of Illinois; and Dr. Orion Stuteville, Northwestern University.

Problems in Control of Pain, Dec. 13—Dr. J. Roy Blayney, University of Chicago; Dr. Daniel Laskin, University of Illinois; Dr. Maury Massler, University of Illinois; Dr. Max S. Sadove, University of Illinois (Medicine); and Dr. John M. Spence (moderator), University of Illinois.

Problems in Treatment Planning, Jan. 10—Dr. Fred N. Bazola, University of Illinois; Dr. Surindar N. Bhaskar, University of Illinois; Dr. Arthur Elfenbaum, University of Illinois; Dr. Loren D. Sayre, Northwestern University; and Dr. Stanley D. Tylman (moderator) University of Illinois.

Problems in Occlusion, Feb. 14—Dr. Allan G. Brodie, University of Illinois; Dr. LeRoy Kurth, Chicago, Ill.; Dr. Saul Levy (moderator) University of Illinois; Dr. Otto Silberhorn, Northwestern University; and Dr. Frank Wentz, Loyola University.

Problems in Caries Control, March 14—Dr. Joseph C. Calandra, Northwestern University; Dr. Trendley Dean, American Dental Association; Dr. Leonard S. Fosdick, Northwestern University; Dr. Robert Kesel (moderator) University of Illinois; and Dr. Frank Orland, University of Chicago.

NEWS OF THE BRANCHES

(Continued from page 18)

who himself contributed materially through his activities to the success of the program. All this is not meant to detract in any way from the valuable services of the dinner committee, which under the chairmanship of Asa LaGrow had succeeded in selling 80 season dinner tickets before any of the programs were known and therewith had safeguarded in advance the fulfillment of the minimum guarantee required by the Oak Park Club by a broad margin. The Round Table under Bob Atterbury and his officers fully repeated—although on a smaller scale—the accomplishments of the evening meetings. The surprise of the year was the founding of the Far West Round Table—at the present under the leadership of LeRoy Sanden—and its rapid growth to the size of 50 regular participants. In behalf of the branch I want to thank them all for their efforts and loyalty. Last but not least: thanks to our correspondent Anthony Malone for keeping us posted throughout the many months. It remains only to wish our new President and his officers an even better year." . . . Wayne Dunnom has written discussing a splendid idea. He has suggested that those West Suburban men who plan to attend the ADA meeting (which will be held in Miami Beach) attempt to make a mass reservation at the Kenilworth Hotel. I heartily agree with him. I know the hotel well, since I have enjoyed its facilities. Wayne knows the hotel manager well and I am certain he could provide some very nice facilities during the meeting. Those who are interested should contact Wayne and discuss plans with him.—Anthony J. Malone, Branch Correspondent.

NORTH SUBURBAN

Our annual North Suburban golf outing is now all set. Wednesday, July 14th, is the day and the place is Thorngate Country Club which is a nice private club and very centrally located in the Branch area. The facilities there are good and

the committee is already working hard and hopes to have a good turnout—for a change. Let's all cross off the books and plan on this date now. Start getting your foursome arranged. . . . I guess I needled Bill McGuire into really going South; he recently returned from two weeks in Phoenix and looked especially tan and disgustingly healthy. He liked that quick plane trip too. . . . Harry Chronquist took off for a week down in the Ozarks with his family while his daughter had her spring vacation. . . . Sherm Johnston, from up North, is just back from Florida as is "Swanny" Swanson. The latter "flew" back in his new car in two days. . . . The final meeting of the year was a great success with 80 present for dinner and many more who came later. Dr. Rhoads gave a very informative talk but received some rather heated discussions over the retention or extraction of "treated" teeth and the foci of infection theory. He very strongly believes in pre-operative medication with antibiotics before extraction and his ideas were well received. The new officers were voted or railroaded into office and duly installed. We all wish Herman Kelder and his officers all the best and hope they can continue with the same fine programs that Scotty and his group have had for us. The fifty-year men were also honored at the dinner and Drs. Upson and Curtiss were present to receive their pins. Charley Baker and Dr. Schlosser were also present but had received their pins at the Chicago meeting. . . . The American Association

of Orthodontia is holding its annual meeting in Chicago in May and our own Jim Ford is the president this year. Jack Donovan, Waldo Urban, and Allan Brodie are all reading papers at this meeting and Russ Ephland is giving a clinic. This must really be a banner year for that society. . . . Bob Jans is about due to leave for a nice trip to Colorado. He is going to an Armed Services meeting at Fitzsimmons General Hospital—that part makes me real jealous; then a visit with many friends in Denver and a stay at the Broadmoor in Colorado Springs. . . . Tod Dewel is going back to the corn country—Iowa—for a few days for the State meeting. He is to present a paper at the orthodontic session which is held in conjunction with the regular meeting. . . . Ed Sullivan took a whole Wednesday off and went up to the Wisconsin meeting and presented a clinic. He was much impressed with this meeting—maybe we should try it next year. . . . "Pete" Pedersen and family just returned from the Mississippi gulf coast, had a wonderful time and got lots of sun and good food. . . . Bob DeWolf, also of Evanston, has just gone home from the hospital where he underwent an operation. Hope he's up and around shortly. . . . Bob Fleming and his wife Pauline were back visiting for a few days. He is still in the Navy near Washington but hopes to be out this fall and is taking several state boards and is undecided as to what he will do in the future. . . . John Ronning, also in the Navy again and in Washington, plans to be out this

AGENTS FOR THE DISABILITY AND HOSPITAL PLANS OF THE CHICAGO DENTAL SOCIETY

fall and is building a bungalow office in Hinsdale which he hopes to have ready by the time he is discharged from service. . . . Floyd Grover and family spent a week at McCormick's Creek State Park in Indiana and Zenas Shafer had to get away too so Floyd can't get ahead of him. . . . I'm afraid everyone is taking advantage of me and getting in lots of early golf before the State meeting. Be seeing you all down in Springfield.—*Arthur G. Freeman, Branch Correspondent.*

WEST SIDE

Hi!—These are the days when hope springs eternal and all the world dons a stimulating fresh new life look. The recently elected officers take over the helm of our Branch on June 1. Under the very capable leadership of Pres. Fred Bazola and his staff, the West Side is destined to continue on to greater achievements. It is exciting to trade in an old model for a thrilling new version, but we often brush off all too abruptly the praiseworthy service rendered by the old order. So to our outgoing officers: Pres. Max Chubin; V.P. Irv. Miller; Sec. Frank Kropik; Treas. Irv. Robinson; Librarian Carlisle Weiss, we would like to express our most sincere appreciation and heartfelt thanks for the splendid year the West Side Branch enjoyed under their diligent guidance. . . . Co-Chairmen Walter Kelly and Chick Vission have everything arranged for you to enjoy that annual fun

day, the Golf Outing at Glendale Country Club, May 26. Golf and sports, cards and kibitzing, a luscious repast, golf prizes, door prizes, prizes galore promise this to be another red letter day for the West Side. Cast your cares away, leave your inhibitions at home, and just for fun do come! . . . The C.D.S. Meeting, May 18, will be a big night for the West Side. Sam Kleiman, a member of our branch, will be installed as president. For the past several years as an officer of the C.D.S., Sam has acquitted himself in a most commendable manner and justly merits this high honor accorded him. Under his exemplary leadership, the C.D.S. is assured another great year. Al Sells, W.S. Director to the C.D.S., will be awarded a Recognition Certificate. For the past three years Al has arduously and faithfully labored for the advancement of the C.D.S. As a member of many important committees he made several noteworthy contributions to the welfare of the C.D.S. members. Al is entitled to a big bouquet of our thanks for his valiant efforts in our behalf. Let's make this a typical West Side night and give Al and Sam a rousing accolade. . . . We were greatly saddened to learn of the passing on of the mother of Art Tessler and also of the mother of Lou Batler. The West Side tenders to Art and Lou in their bereavement our heartfelt condolence. . . . Some time back George Barnes, an ardent devotee of the "Fix It Yourself" intelligentsia, paneled in oak a small section over the fireplace. The results were so enhancing that in a

weak moment George decided to panel the whole living room. Enthusiastically with reckless abandon he attacked the walls to prepare them for the paneling. But soon his enthusiasm wilted for it is a very difficult and exacting project. At the current rate of progress, George figures this task will keep him occupied when he goes on social security. . . . On May 1, Capt. Nate Potkin was transferred from Camp Polk, La., to Fort Riley, Kan. Nate is happy to be moving further north and hopes the next move will be to Crawford and Madison for good. . . . Since Feb. 1, Ralph M. Anderson has been enjoying the life of a plutocrat under the Florida sun so much, he just would not tear himself away. But alas, all good things come to an end so now he is slowly coming north with the spring, stopping for golf at every inviting course. We expect him at Glendale on May 26. Hope he makes it. . . . On April 19, Richard A. Leavitt, who practices at 9 So. Kedzie, was all set to enjoy his dinner at Little Jack's Restaurant in the same building. Nonchalantly he watched a growing commotion outside the window. But the clanging fire department arriving on the scene aroused his curiosity, and he strolled out to behold great clouds of black smoke belching forth from his office windows. The fire, of unknown origin, in his lab. did considerable damage to his office and it will be some time before he may resume practice. . . . A special invitation is extended to all West Side members to attend the Ill. Alumni Golf Outing June 16 at White Pines. . . . Sylvester Metcalf is

sailing in the clouds in a classy new Cadillac. . . . Bill Whittaker, he with the disappearing swimming pool, took his family to the old home town, Collinsville, Ill., for the spring vacation. There he is showing his boys Bob and Jackie the old swimming hole he enjoyed as a barefoot boy, quite different from the swanky pool the boys enjoy in the basement on deluge occasions. . . . Up and down for six furious rounds, Bill Gubbins stubbornly battled that Ole Virus Bug, but on the seventh day the old so-and-so sneaked in a punch that rattled Bill's chest like an old Model-T Ford. Bill landed flat on his back where he stayed weak for a week. The bout with the virus infection left Bill pretty well dished out, but we hope by now he is completely recovered. . . . With this issue we bow out as Branch Correspondent. We have greatly enjoyed these FORTNIGHTLY visits with you. Your words of encouragement have been most sustaining. Your calls, cards, and cooperation are greatly appreciated. Thanks very much. You have been swell. So, to you all goes a "Star from Starkey." So long!—*Adolph F. Stark, Branch Correspondent.*

ENGLEWOOD

I'll sue! I'll get every dime they have! Fine thing! Here I am scratchin' out this copy with an old beat up pencil stub, and all 'cuz my Paper Mate pen cut out after only 69,987 words. Just goes to show you that you can't believe any of these ads today. 70,000 words without re-filling indeed! . . . Well, anyhow, the Loyola show was a largish success. Big turnout and the gang enjoyed a very well organized meeting. My own clinic, "Elephants as House Pets on a Budget," was a sellout. But I must apologize to the boys who came late. The Battle-axe didn't figure the mustard right, and I ran out after the fifth yard of hot dogs. Now I know why they gave Ray Van Dam the title of Toastmaster. Didja see him "poppin' up" all over the place? . . . So now the fellas can simmer down and get back to the quiet everyday ways of life. Francis O'Grady has his

Irish garden in now and it is truly a thing to be seen. He has vi O'lets, daff O'dils, gladi O'li, heli O'tropes, O' Toole-ips, and (Hang on tight) Pat Unias. All right All right! I'll quit already! . . . The Englewoodheads are a restless lot these days. A. G. Person is visiting his son and family in New Jersey. . . . Harold Hayes trotted (imagine, at his age) down to Biloxi, Miss. during the clean-up school vacation. . . . Bill Hillemeier spent a week in North Carolina. . . . Ben Jostes preferred Fort Myers, Florida. . . . Ed Scanlan spent a couple of days and a few bucks doing the Derby. . . . AND, I got a card—yes I did—from Joe Plewa who reported that Henry Debski enjoyed a few days in the Fla. sun. . . . BUT, didja see what that Fla. sun did for Paul Kanchier? Boy, does he ever look wonderful after his trip to Miami Beach! Got a nice card from him too, telling me that he was just plain loafing and soaking up the glorious sunshine—and he's got the tan to prove it, too. Paul asked me particularly to express his most sincere thanks to you who donated blood during his recent illness, and to thank his many friends who sent letters and cards, and to tell those of you who 'phoned him or called on him, just how much your kindnesses meant to him. Heck, Paul, you rate it! . . . Uncle Tom's cabin is being dusted off but brother Starshak was not yet on the job at last report. . . . Golly, this is cute. I'm watching the ball game while writing this to you. The umpire has a seeing-eye dog. Now *that's* the way it should be! . . . The May 4th meeting was a double-header,

featuring Dr. Walter Buchmann's presentation of crown and bridge work by indirect methods, which, from the enthusiastic reception Dr. Buchmann was accorded, was just what the doctors ordered—and wanted most. The installation of branch officers for the ensuing year was conducted by Tom Starshak. Those installed were: Francis J. O'Grady, president; Romaine J. Waska, vice-president; Theodore H. Vermeulen, secretary; and Alfred P. Jason, treasurer. Robert Straub, last year's president, takes over on the Board of Directors of Englewood. Thank you, Bob, for a most wonderful year. We all wish you continued success in your new position of trust. . . . Vince Milas joins the ranks of illustrious Engle-poets with:

—POME—

Children are
What parents mold them;
Small wonder then
That parents scold them.

Yep, Uncle Vince, they copy after Mama and Papa in spite of all we do to make nice people out of 'em. Incidentally, welcome to the fold—do it again. . . . Hmmmmm. No rebuttal as yet from "A Member." I expected a lawsuit at *least*—and with two pairs of pants. Suggested reading for "A Member," *The Gentle Art of Making Enemies*, by James McNeill Whistler. . . . A loud huzza of welcome to Edwin Tharp, late of a long Navy stretch, who will office at 1971 West 111th. Best to you, Ed. . . . Don Wheeler

got his fly paper (flight reservation to you) and made a quick visit to his daughter in Calif. . . . Sorry to report Mrs. Emil Olivi hospitalized for surgery. . . . Sinard recently spent a week in Fla. holding a fish pole. . . . S. Becker will soon be off to his diggings in northern Wisc. where he will spend the summer. Y'know, a total stranger to him knew his first name. T'other day he came rushing around a corner and bumped into this guy, nearly knocking him over. This guy hollers out, "Why don't you watch where you're going, Sebastian!" . . . Friend Lucas is spending off hours planting like mad up at his shack in Harbert, Mich. . . . So-o-o-o-o-o, as the mouse said as he backed into the mousetrap, "THIS is the end of my tale!"—*Englewood's Poet Lariat, The Pied Typer of Ramblin', Local 602, Branch Despondent.*

NORTH SIDE

The annual golf outing of the North Side Branch will be held on Wednesday, June 16th, at the Wilmette Golf Course at Harms and Lake Streets, Wilmette. This is the former Northwestern University Golf Course and is familiar to many North Side members. Golf for the day will be \$3.00. A roast beef dinner will be served in the evening for \$4.50. There will also be refreshments during the day. The usual enjoyable day can be expected by all who attend. . . . After completing arrangements for the golf outing, Chairman Harry Kent of the Sports Committee took off on a trip to California. It is suspected that he is still trying to improve his golf game. . . . In Harry Kent's absence, Vice-Chairman Andy Sauer, Jr., is carrying on for the Chairman of the Sports Committee. . . . We also have some bowlers among our members. In

league play last week, I. S. Jacobson bowled 211-222-236—total 669 series—and that is some bowling. The Good Fellowship League that bowls at the Arena announces that the championship of that league was won by a team captained by Bob Riemer. . . . Many North Side members were down in Springfield for the Illinois State Dental Society meeting. A number of them presented clinics. Among the clinicians were: Timothy Bishop, M. R. Falstein, Fred Weitz, Alfred Kamin, Russell Boothe and John Lavieri. . . . Herb Gustavson and John Anderson presented their high speed technique at the Loyola Homecoming. They had quite a busy afternoon. . . . Dan Beshoar has departed on a trip to Europe. He will spend about six weeks touring the continent. . . . Manley Elliott has been taking a series of Napoleon Hill courses. How is it that the men who are most successful and least in need of dental or business education are usually the men who continue to take courses and attend clinics? . . . Francis Joseph and Earl Elman have turned song-and-dance men in the review presented by Temple Emmanuel. . . . Brad Brown has returned from an enjoyable Florida vacation. . . . Sam Levin, who has been retired for several years, has been keeping himself in good condition by keeping his house and lawn in trim. . . . Arthur Krause is reported to be going to London to give a lecture. Let's hope he can squeeze a little vacation into a trip like that. . . . Stan Goldberg has been seen driving around in a new Buick Roadmaster. . . . You can practice up for the North Side Golf Outing by participating in Golf Day at the State meeting in Springfield on May 10th or the Alpha Omega Fraternity golf outing at Nordic Hills Country Club on May 19th.—*Frank Hanagan, Branch Correspondent.*

TRUBYTE BIOFORM® TEETH

THE FIRST VACUUM FIRED PORCELAIN TEETH

Reproduce the Lifelike and Beautiful Qualities of Healthy Natural Teeth

TRUBYTE® DENTURE VENEERS

...Reproduce the Natural Color of the Living Tissue and the Anatomy of Natural Gum Contours

The highest
achievement
in denture
esthetics

Many leading authorities agree that the ever increasing cosmetic and esthetic requirements of modern dentistry demand a new evaluation — a completely new concept of denture construction — with the desirable objective of securing in the artificial denture the phonetics and esthetics truly representative of the natural dentition.

This objective can now be realized. Now, for the first time, it is possible to easily and quickly reproduce the natural anatomical contour and living tissue color in the artificial denture. Trubyte Denture Veneers, in combination with the beautiful natural forms and shades of Trubyte Bioform Teeth, open the way to a vast new esthetic denture service.

Here is a new and distinctive service for all your denture patients — the most important potential improvement in your denture practice since the introduction of modern acrylic denture base materials.

The Denture Supply Company of N. Y. York, Pennsylvania

Safe! with **DEE GOLD**

Yes, you're **SAFE** when using **DEE GOLD** . . . because the years of metallurgical research enable **DEE GOLDS** to have the right physical properties for each specific use in dentistry. **SAFE** . . . because of the unvarying uniformity found in each composition. **SAFE** . . . because you know your patient will be satisfied.

Write for this **DEE GOLD** folder. It gives the melting range, physical properties, and suggested uses of the different alloys.
